-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 November 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group I, claims 12 and 17 in the reply filed on 4/10/2007 is acknowledged. The traversal is on the ground(s) that applicant submits that Groups I and II have in common the blood pressure lowering activity of the claimed materials. This is not found persuasive because the claimed subject matter does not have a special technical feature as addressed in the restriction requirement since the method of claim 12 is known as is evidenced by the reference cited. Further, since claim 13 encompasses "prevention" this clearly does not read on a "mammal suffering from hypertension" since prevention, prevents what has to be treated, i.e. hypertension. In other words, preventing hypertension, the patient does not have to suffer from hypertension for it to read on claim 13 whereas in claim 12 the patient clearly has to suffer from hypertension. A reference that anticipates prevention does not anticipate "suffering from hypertension".

Accordingly, claims 13-16, 24-36 are withdrawn from further consideration as being drawn to non-elected subject matter.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 12, 17 and 37 are rejected under 35 U.S.C. 102(e) as being anticipated by Babish et al. (US 7,279,185).

Babish teaches that hypertension can be treated by using the formulation in example 2 which includes dihydroisohumulone (an isohumulone), see examples 2 and 6. As noted by Babish, the patients or animals can include humans, see col. 8, line 60-col. 9, line 10. Clearly in the examples, humans are used. Clearly a treatment of

Art Unit: 1655

hypertension will inherently lower the blood pressure of someone who is suffering from hypertension since Babish is clear that hypertension is being treated.

1. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
